*Traders Australia*

**EUROPE 2012-13**

A family company from Australia

# The salt of the Earth...

SO WHAT MAKES KAKADU DIFFERENT? Some say it's the unique styling that has been influenced by the varied terrain of the Land Down Under. Others reckon you can feel the quality of the fabrics, solid metal hardware and leather trims we use from the first moment you slip on a Kakadu garment. And some think its the things you don't see that really tip the scales - raglan sleeves and action back pleats that give a full range of motion in our jackets, leather lined handles on our bags for optimum comfort, and the hidden extras like button-in liner and chinstrap facilities.

Regardless of the task, Kakadu gear is up to the challenge - from the harsh climates of the Australian outback to crowds of the big smoke...

## INDEX

### COATS, JACKETS & BOMBERS

#3J02	PILBARA JACKET	8

HATS

WHAT IS A SOAKA?

Putting the 'fun' back into functional, the Kakadu Soaka collection are washable & squashable hats that come in a range of colours and shapes.

Our Soaka fabric is water resistant and has been rated with an Ultraviolet Protection Factor of 50+ and, if dunked in water before wearing, it will help you really keep your cool.

All Soaka hats come standard with a built-in chinstrap and toggle.
